

## Visit to DWMC project site by Dubai Civil Defence

Following a meeting between the DWE Project management team and Brigadier Ali Hassan Almutawa and officers at the DCD HQ, operational officers and crews from the Rashidiya station visited the DWMC project site on June 16<sup>th</sup>. The DWE project site is in the Rashidiya station area and the crews were keen to find out what hazards and risks we have, so they can develop emergency action plans for the site. These preliminary meetings have established communications between the DCD and the site teams and further visits will be arranged to build up emergency plans. As the project moves towards commissioning and operational phases it is important to develop our emergency response resilience, and joint emergency exercises involving project teams and DCD crews will be planned. After a construction progress briefing the DCD crews toured the project site.
